Table of Contents • iii
### Theme 4: People and Ideas in the Assessment of Public Built Environments

- Universities, City Hall, Industries, And People The Motor For Transforming Cities Into Sustainable Cities
- Public Buildings
- Workplace Performance and Productivity
- Evaluation Of Intelligent Office Buildings In The Cross-Cultural Context
- Assessing Workplaces
- Designing Workplaces Around The World – How Does Culture Affect The Process?
- The Changing Workplace
- Working Group For Issues In Facilities Management
- Participation: A Discussion
- Engaging the Community
- Participation and Programming
- Participatory Planning At The Regional Level: The Experience of Chattanooga, Tennessee and Central Virginia
- Organizationally-responsive building performance evaluation
- Integrating improved work environments and sustainability into the design process for public buildings

### Theme 5: New Ideas in Built Environment Research

- The Role Of Place Attachment And Sense Of Place In Community Development And Participation
- The Real And The Production Of Meaning
- Is This A Real Place?
- Ethical Concerns In Environmental Research And Practice
- Environmental Transitions
- Identity Of Place
- Methods For Studying Movement In Designed Space
- Design Psychology Applied: Hands-On Design Using Psychology as the Principal Design Tool
- Transdisciplinarity In Theory And Practice: Obstacles And Opportunities
- Psychological Factors in Design
- Measurement in Design

### Theme 6: New Ideas in Architectural Theory and Education

- Environment-Behaviour Studies in the Changing University
- Design Education: People and Environment in the Design Studio
- Changes in Built Environment Education: From Design Studio to Practice
- Noise: Research, Design Causes and Solutions
- How Should Human Space Be Represented?
- Spatial Analysis And Social Representation Of Urban Place
- Aesthetics and Meaning: Approaches to Assessing Quality in the Built Environment

### Theme 7: Environment in a Shrinking World

- Perception of Semi-Natural Urban Green Spaces
- Perceptions And Values Of Forest Landscapes
- Environmental Protest and Public Opposition to Environmental Developments
- Ecological Behavior: Assessment, Prediction, And Change Across Contexts
- Human-Wildlife interactions in natural environments
- Reframing ‘Interpretation’ and Nature-Based ‘Heritage Management:’ Designing Experiences and Transactional Encounters
- Sustainability and the Perception of Natural Environments
- Renewal and Rehabilitation in the Built Environment
- Environmental Amenities, Rural Landscapes and Small Town Life

### Meetings
